Senator Miller felt he could assist [redacted] in obtaining a deferment but asked him to obtain an official request from the Agency asking him to do so. 15. (Secret - JMM) Met with George Murphy, Joint Committee on Atomic Energy staff, who asked about [REDACTED]

[REDACTED] Murphy said that at the 20 February briefing of the Joint Committee the Director should expect questions on Soviet and ChiCom nuclear programs and weapons, delivery systems, Soviet ABM and reasons for the apparent suspension of further construction, Soviet nuclear submarines, etc.

16. (Unclassified - JMM) The senior duty officer called at 1845 to say that Senator Jacob K. Javits had called earlier for the Director, who was out of town, and upon return the Director had asked me to call Javits and find out what his problem was. I called Javits' office but found he had departed for New York and would be on the West Coast all of next week. His secretary said the matter apparently was not urgent.

2. (Secret - GLC) Received a call from Chester Smith, General Counsel of the House Committee on Un-American Activities. He said he had spoken with Chairman Ichord about [REDACTED]. He said the Chairman was most interested and has asked either Messrs. Appell or Sanders, on the staff of the HCUA, to meet with [REDACTED] to determine Committee interest in having him appear in executive session. Chairman Ichord also mentioned to him that if [REDACTED] should not be of interest to the HCUA, he might want to have him appear before his House Armed Services Subcommittee. I did not comment on this latter possibility but this would obviously be something which we would want to discuss with the Armed Services staff and probably with Chairman Rivers. Either Appell or Sanders are to contact us to arrange the meetings with [REDACTED]. We will be present at these meetings and will also suggest a preliminary meeting with a knowledgeable Agency official prior to the actual meeting with [REDACTED].

I told Martin I doubted that I could be of any help to [REDACTED] but I would be willing to talk with him if he called.

9. (Confidential - GLC) George Murphy, on the staff of the Joint Committee on Atomic Energy, called and discussed possible dates for the Director's briefing of the Committee. I told him that the Director was already committed on 18 and 19 February (dates Murphy had suggested). I indicated that as of this moment either the dates of 17, 20, or the 21 might be acceptable. Murphy said he would shoot for the 20th and let us know if this was a good date for the Committee.
